Don't you just love a parade? Jerri and I do! We like to hear the music of the brass band, the marching rhythm, and the cheering crowds! To help cheer the parade along we wear our Cheerleader costumes, with initialed wool sweaters, and we even have a pennant to carry. Won't you come along with us as we start our Parade of Fashions? We're going to begin right away. There's the music! Let's go!

Our costumes, shown on the cover, are:

THE STORY OF TERRI LEE

Once upon a time, not long ago, there was a Lovely Lady who had a beautiful little girl with shining curls and bright eyes like stars and oh! so many pretty clothes! This little girl's name was Terri Lee. The Lovely Lady thought, "How nice it would be if there were a doll just like my Terri Lee!" And she made a doll that looked like the real little girl. Then she thought, "How nice it would be if this pretty doll had lots of costumes!" And she made lots of costumes for the pretty doll. Then she thought, "How nice it would be if every little girl in the whole country could have a doll exactly like this one, with pretty clothes!" And that's how Terri Lee Dolls and their many beautiful costumes came to be.

The Lovely Lady thought of important things like how some dolls get broken when they're loved too hard, how their clothes get mussed and soiled from being played with, and how their hair becomes all shabby after a little while. She wondered what she could do to be sure the Terri Lee Dolls would be lastingly beautiful. So she had the dolls made of a fine, strong, durable plastic that would be unbreakable. She had a special kind of fiber material imported to make the hair for the Terri Lee Dolls, that could be shampooed and set. And the costumes? Even though they would be made of the finest of materials, with fur and lace and handwork on some, they could be easily cared for.

Then she thought of having a real Doll Hospital and Lifetime Guarantee for the Terri Lee Dolls, where Little Mothers could send them in case anything happened to them, or where they could have new wigs put on them. That's how the Terri Lee Doll Hospital at Apple Valley, California, came to be!

And then the Lovely Lady thought, "Terri ought to have a brother!" So she made Jerri Lee, and designed all sorts of wonderful outfits for him; after that came the rest of the beautiful

dolls in the Terri Lee circle, and finally Linda Baby. Linda Baby is the beautiful baby sister of Terri and Jerri, who is made of Rose-Petal Vinyl and looks like Terri, too. There were costumes made for Linda, just like real babies wear.

And then the accessories—the monthly Terri Lee Magazines, printed and sent to all Little Mothers; the Birthday Club, the Terri Lee Thrift Club, Terri Lee in 3-D, the wonderful wardrobe trunks and chests, the Fashion Racks, the Terri Lee Records; the Bassinettes and Play Pen and Nursery Chair for Linda Baby; the Terri Lee Walker and all the rest, were planned and created. There were so many wonderful things to make and it seemed that every little girl wanted them, so there had to be a special place to make all these things. That's how the Terri Lee Doll House in Apple Valley came to be! If you could see the hundreds of wonderful dolls, the thousands of beautiful costumes and accessories in the Doll House, you'd think you were truly in Santa's Palace! There's the Beauty Salon, where Terri's new hair styles are designed and made; the place where each and every Terri, Jerry and Linda's face is specially, separately hand-painted on; the rows and rows of Terri Lees dressed in their finest on a shelf for all to see—and everywhere you would feel the Fairyland magic that surrounds all things Terri Lee! The Lovely Lady waved her magic wand and created all this from her loving thoughts—

And she thought of everything, didn't she?

WINTERTIME

When it's freezy-cold and the icicles sparkle and the crystal snow flakes flutter down like fluffy stars, dress me warm and cozy in one of my cold-weather sets! Here are three of them. My pretty winter set with white fur and hat and galoshes, on the left, comes in soft pastel colors. The fur sport coat and hat looks like real leopard skin, and I like to wear it over a wool skirt and blouse. My snow suit has a warm parka, mittens, galoshes and a soft fur coat. I just couldn't get cold in one of these!

SWEETHEARTS

When it's Saint Patrick's Day I feel perfectly dressed in my Irish Colleen Dress with its tight bodice, full sleeves, ruffy skirt and straw hat! I dance a happy step with the handsome laddies in this outfit. And isn't my Heart Fund Dress lovely? It's the one I wear because I'm the official child of the Heart Fund Campaign. Did you know that if you buy this outfit, part of the money is given to help children who are ill with rheumatic fever, through the Heart Fund? I love to be able to help others, don't you? I love the bright colors, the full pinafore and the little heart bracelet that says "I love you" that comes with this costume.

SPRINGTIME

Springtime! The flowers are so bright and lovely after their winter's nap! And Jerri and I love the warm golden sun and the fresh new green on the trees and grass, don't you? We like to take walks wearing our beautiful spring outfits. Here I am in my spring coat with the white under-collar and white felt purse, and Jerri in his matching spring suit. Our hats are felt, too, and so spring-time-ish! I'm wearing my taffeta duster on the other side of Jerri, with the peaked "pony-tail" hat. Isn't it cute? I can wear my duster all spring and summer.

Here is a group of my costumes which is very special. In the center I'm in my white lacy Confirmation Dress that comes with its own little gold-colored necklace with cross pendant, and a veil with lace on net. Don't you think I look sweet? On the left, my dress has an exquisitely embroidered nylon blouse with organdy skirt, and the costume is completed with new Easter bonnet and purse to match. Next, you see me in crisp taffeta, and on the right I am dressed in pastel organdy with a lovely picture hat. And whatever your faith, please don't forget to go to Sunday School or Church every Sunday, and take me along!

PARTY TIME

For birthday parties what could be prettier than my frilly Birthday Dress? It's a cheer ruffy dress worn over an organdy can-can petticoat, and you see me in only one of the soft colors it comes in. The dress on the right is my Redingote and it's worn over a bright colored Sun Dress, so it's really two different outfits! The two Party Dresses in the center are dotted Swiss and organdy that I wear over my can-can undies. Which one do you think is prettier? I can't choose which! I wear them to the parties I'm invited to and also to Sunday School. You can take me to parties with you, too, in one of these pretty dresses.

SPRING SHOWERS

Rain, rain, go away! But we don't mind the sprinkles when we're all dry and warm in our new rain coats! The raindrops splash and the gray clouds hang low, but soon the sun comes out again and shines on the flowers and trees, and makes them grow. We like to walk in the showers in our pretty opaque plastic rain coats that come with rain hats in a whole rainbow of pretty colors! Won't you love having us with you when it pours, dressed in our rain clothes just like you'll be? No need to leave us indoors, because we can be bathed, go swimming, or be caught in the rain and it won't hurt our durable skin! But of course we'd rather be in our new rain coats, if you don't mind, when you take us out in the rain. Then you see one of my school dresses I wear with a little felt hat and purse, and inside the purse is a real comb.

SPRING INTO SUMMER

Cool days, warm days—you can't tell just what the weatherman has in store for us in the springtime, can you? So Jerri and I like to wear our pique suits and if it gets too warm, he removes his coat. These suits are such pretty colors! Mine has a pleated skirt and full, loosely fitting coat. I have flowers on my straw hat that comes with it. Jerri's suit includes a shirt, coat, pants, and hat. The checked suits are trimmed in white, and I wear my little straw bonnet with that one. Jerri's is belted and has the creases in his trousers stitched so they'll stay in nicely. His straw hat is turned up and he wears it at an angle to show off his hair, and I like to tease him about it!

SUMMER FUN

Here we are in some of our Summer favorites! Jerri likes to play in his denim jeans and sport shirt, and he looks very nice, too, don't you think? The play suit is my pretty ruffy bloomer suit with plaid trim, and I know I'm dressed in the latest style in it. When I go to the farm I like to wear my Farmerette Costume with its slacks and shirt, because it's comfy and easily washed if I get it soiled. And the pretty frilly dress on the end is my newest Pinafore—don't you love it? I do! Look at the embroidery that makes the front and shoulder straps—the full skirt—the ribbons! I love this dress. Fine organdy is the material.

WATER BABIES

The sun shines hot and the water looks so inviting! It's just the time to get a perfect tan, isn't it? So Jerri and I wear our swim suits to the beach or pool. First you see me in my Swim Suit that fits so nicely, and next to me is the Complete Swim Kit including everything I'll need for a day in the water and sun! There's a Swim Suit, Sun Suit, Beach Coat, Towel, Beach Shoes, Sun Glasses, plastic bandana and an inflatable Swim Ring inside this plastic bag! Jerri looks nice in his boxerstyle Swim Trunks, doesn't he? And I wear my swim suit and beach coat when he and I go swimming together. I love to swim, so don't be afraid to get me wet!

LET'S PLAY

Let's play games! We can have lots of fun! I love to play with you and here I am in some of my play dresses. The pretty one you see on the left is my Special Dress with ruffly panties that match the trim on the dress. I love the full skirt, don't you? Jerri and I dress as twins sometimes, and we have twin Play Sets, as you see next in the picture. I like these outfits, don't you? The dress on the end is my bright-colored print with contrasting yoke, sleeve tops and skirt hem. All of these come in bright figured percale; some with fire engines, some with trains, some with birds, and some with flowers, every color of the rainbow too. Let's go play now!

Here are four of my special outfits you're going to love! The first is my new Pedal Pusher costume, with the pretty blouse and trim on the turn-up cuffs. I love to go bike riding in this! Next is the Tennis outfit I wear when I play tennis. Then there's my beautiful Toreador set, with the colorful pants that tie at the calf, and the metallic-fringed collar on the blouse. It comes with its own belt. And finally, when I go golfing, I wear the Golf Togs on the right. They're denim and they button on the side of the pants, as you can see. A little golf club and a white molded cap complete my outfit when I'm dressed. Take me outdoors to all your activities with you!

First, on the left, our matching outfits for Sports—Jerri's Suspender-Pants and shirt with collar that matches the pants, and my tailored, full-skirted Sport Dress with the pretty white belt. On the right, and my Town Dress comes with ruffy pants that match the trim on the dress. This is another "Shorthand Secret" dress, and if you can read shorthand—it has a message for you. I belong to the organizations that you belong to, so you can take me along with you to your meetings dressed in real, official uniforms! I love all the activities you have in Scouting and Camp Fire Girls. Above, my Girl Scout and Brownie Uniforms just like your own, and my Camp Fire and Blue Bird Uniforms too! We learn and have fun and help others in these wonderful groups, and I'm proud, believe me, that my uniforms are official and have the approval of the organizations. You'll be happy to take me with you on your outings and to meetings dressed just like you—and I'll be happy to go! And don't forget when you buy one of these, part of the money goes direct to headquarters to help support each organization.

Comes Autumn, with the bright and beautiful colors on all the trees! Comes Autumn, comes school—and how I love to go to school with you! Here is a pretty assortment of school dresses! I have a lot of them, and there isn't room to show them all in this book. Above are four that I like very much. They are made of gingham and broadcloth, chambray and eyelet embroidery trim, and the one next to the end is another "shorthand secret" dress. INVITATION TO THE DANCE

I love to dance, and when I do I wear my lovely Ballerina or Toe Dancer Costume or Square Dancer Costume! Be sure you take me along when you go to your dancing class, or to a recital or square dance. Ballet is so much fun, and we can learn together, can't we? Maybe your instructor will let me watch from the wings when you're dancing on the stage. Left, my new lovely Ballerina Costume, with its full long skirt; right, my Square Dancer Costume—cool and lacy and tied at the waist with a ribbon; center, my short filly Toe Dancer Costume with silver lamé bodice. Ballet shoes, of course, complete the Ballerina and Toe Dancer Costumes.

EVENING WRAPS

Over my pretty formals and other long dresses I like to wear my beautiful long formal coats and capes! Aren't they dreamy? Look at the sparkly silver lamé Long Formal Coat above—it's fitting to the waist, then it flares out full and pretty. And the White Fur Coat and Hat in the Center—I especially love this set! It's so soft and warm and pretty for winter evenings out! At the right is my short evening cape, white fur, that looks so lovely over my long formals or Bridesmaid Dress. Let's go dancing, and the cold snowy winter doesn't matter a bit!

SKATING COSTUMES

Here I go sailing around the rink—and whether it's ice skating or roller skating doesn't matter at all, because I have outfits for both! My Ice Skating Costume is lovely, isn't it? Short and flary and sparkly—and look at the hearts that flash when I whirl! And my Roller Skating Outfit with its full fluffy skirt is pretty as a picture, isn't it? These come with real little ice or roller skates, too, so they're really quite complete. Take me skating—winter or summer—in my Skater Outfits!

UNDERMENTIONABLES

What every little lady knows is that pretty under things make for a feeling of being well-groomed and well-dressed, isn't that so? I'm wearing my full-ruffled Can-Can Panties in the picture above, and next to it, my Can-Can Slip that goes with the Panties, if you wish, as a set. Jerri wears his brightly colored shorts and finally on the right end of the picture I'm shown wearing my soft, silky chemise. And how do you like me in pigtails? They're very comfortable and practical, too.

TIME FOR NITEY-NITE

Pardon my yawn—but I'm so sleepy now! It's been a busy day, and we've had such fun! Now off to Dreamland, in one of my pretty sleep-tight outfits. First, I'm in my Pajamas, Elf Bedroom Slippers, and soft, cuddly Housecoat—isn't it sweet? Next I'm wearing my nitey and hand-crocheted Bed Jacket and Slippers, Jerri's tired too—he's ready to climb into bed with his pajamas, bathrobe and Elf Shoes like mine. At the right I'm wearing my pretty flowery flary robe and I like this one for relaxing and even for breakfasting. Kiss me nite now, and let's say our prayers and go to sleep.

READY TO TRAVEL

Above, I'm shown with my wonderful Wardrobe Trunk that comes with me inside and a whole assortment of beautiful costumes! You'll want one of your own, I know. You can take me on trips, or keep the trunk to use for my things in your room. I know you'll like what's been packed inside the Trunk—a Raincoat, Party Dress, Pajamas, Pedal Pushers, Dress, Shoes, Ribbons, oh—so many lovely things! And even (how thoughtful!) a Hair Dress Kit for keeping my curls pretty! Left, I'm wearing my gay Scotty Girl Outfit with its brilliant tartan, its pleated skirt and tam.

FASHION ACCESSORIES

Here are two answers to the question, "How to keep my things neatly?" First, my Fashion Rack that comes with its own hangers, for neatly rehangng each of my things after I've worn it. It's shown here with some outfits on it, but of course it comes without any so you may choose your own. The other arrangement for putting my things away nicely is the Small Chest on the right, and it comes with or without a selected assortment of costumes, as you prefer. Hangers come with it. This is a wonderful way to care for my pretty things, isn't it?

I'll be the apple of your eye and everyone will stop to look at me, so dress me in my prettiest and let's take a stroll!

Just like all boys and girls, Jerri and I love to play Doctor and Nurse! Here we are—Dr. Jerri in his white hospital uniform and glasses, Linda in her Bassinette, and me in my white nurse costume with a cap just like real nurses wear! We're playing that Linda has a cold and Dr. Jerri must give her some medicine, and she doesn't mind a bit, as you can see by her happy little face. I'm ready to help the handsome doctor with the treatment!

SWEET DREAMS

Here we are, Linda and I, ready to be tucked in. Linda is going to sleep in her Bassinette, of course, but she likes to listen to our "Dolly's Lullaby" record with me before I put her to bed, so she and I lie down on my pretty Canopy Bed under my satin quilt and we rest on my satin pillow as the record plays. Record shown, "Dolly's Lullaby" with the other side narrated by Terri Lee herself, "The Story of the Three Bears." It lulls me to sleep so sweetly—and maybe you'll like going to Dreamland, too, to the music!

TRAINING BEGINS FOR LINDA

We big girls know that things like good habits and being dainty start early—and Linda loves "training time" on her very own little Nursery Chair! She will remind your own baby sister or brother, too, by setting a good example. She's like a real baby and real babies have to be taught about things like bathroom training. Linda will learn quickly, I know!

LITTLE LADY STYLES

Linda wanted to show you these three outfits, so I dressed her in them for you to see. She loves her Hand-crocheted Sweater and Bonnet Set, which ties with a lovely ribbon bow, and doesn't she look cuddly-cute in it? In the center she's wearing the pretty dress you see in the other two poses too, under the sweater and coat. The outfit on the end is the beautiful Taffeta Coat and Bonnet Set—so dressy and so sweet! Won't you be proud, showing Linda off in her dressiest "Sunday best" things?

Linda follows in my footsteps, Mother says, with all her pretty baby clothes that look just as glamorous and beautiful as my costumes! Here is a complete layette all packed and ready for her, and you can see how happy she is, too. She doesn't know what to reach for first! You'll love the outfits in this set, from the perfectly-made little lacy, embroidered slips and "Fancy Pants" to the be-ribboned, rose-budded Kimono, and of course you'll adore her Taffeta Coat and all the other lovely little-little-girl dainty things! IN THE TREE TOP

This is something different, and how Linda loves it! When the music box plays "Rock-a-bye Baby" Linda's right in tune! This is her Musical Tree Bassinete, a basket all fluffy and ruffy with ribbons and nylon net, that hangs from a limb of the tree stand. What a precious bundle Linda is in this sleep-basket, and how sweet you're going to say she is in your own nursery! She'll be so happy there, and you'll love my baby sister just as you do me. Her Kimono Set is so dainty with lace and ribbons and rosebuds! You'll want to dress her in these after her bath, and then snuggle her all cozy and comfy in her bassinette for a doze. What could be sweeter?

Just like every baby who loves to play and creep about and who must have a special place so she won't get into too much innocent mischief, Linda has a Play Pen! It's just the right size for her, and it comes with a pad so she won't be sitting on such a hard surface. Linda will safely play and sun-tan in her Play Pen indoors or out, and you'll not worry about her creeping off to chase a butterfly while she's inside! She loves her Play Pen, and I do too. Don't you?

Linda wears her Creepers when she plays, trimmed in lace and ribbon of course.

HOW TO CARE FOR MY HAIR

My hair is made of fine Raysheen. When you first buy me I've just come from the Hairdressing Salon at the Terri Lee Doll House in Apple Valley, California. There my hair has been cut, curled and arranged in the hair-do that has been designed for me. After you've played with me for awhile, my hair may need to be recurled or re-arranged, and here's how to do it.

First and most important, please be careful! My hair should be combed section by section, always supporting it firmly where it is fastened to the head, as my hair does not grow in the scalp like yours. You can wash it with any of the nice detergent shampoos—don't use soap. Avoid tangling as much as possible while shampooing. Brush or comb it in sections when it has dried. Dampen lightly but completely on top and underneath each section as you curl each separate one, then roll up on regular hair curlers or the ones in my Hair Dress Kit. If you use too much water when you roll my hair, it may curl too tightly or be fuzzy—so use only enough to dampen it. Be sure to let it dry thoroughly before you remove the curlers. This usually takes about 24 hours. You may put me in the fresh air but never under direct heat, please. You needn't comb or brush after taking out the curlers.

If you have a curling iron, you may use that on my hair. Be sure it isn't too hot, and curl my hair a section at a time just like you do with the curlers. You must not use water with a curling iron. My pigtails are Saran and not Raysheen, and cannot be curled on the curling iron.

When you give me a new hair-do, pretend you're fixing your own hair. Then you'll be careful and gentle with my hair, and when you've finished I'll look lovely.

For a new wig or any other repairs I may need, send me to the Terri Lee Doll Hospital at Apple Valley, California, and I'll return to you looking just as I did the day you first saw me. Have fun with me, and I'll always be

Your loving friend,

nd,
Terri Lee®

ABOUT YOUR TERRI LEE COSTUMES

This, your Terri Lee "Fashion Parade" Brochure, has been prepared to show you selected costumes representative of the hundreds in her lovely wardrobe. We haven't space to show all of them, but you may see more at your Terri Lee store. We hope you like the costumes we chose.

Terri Lee designers and the staff at Apple Valley, California, spare no effort in creating the loveliest, finest, and most practical as well as glamorous of outfits for Terri Lee Dolls—we feel sure that no wardrobe, for doll or not, could surpass the array of costumes for Terri Lee. Colors, trims, tiny buttons, lace, materials—everything that goes into the creation of Terri Lee Fashions is chosen fastidiously; the workmanship and packaging speak for themselves, and every effort is made to assure Little Mothers of being able to take care of her doll's things as carefully and as regularly as she does her own. Learning as children to care for fine things, we feel, teaches the lesson of care that lasts a lifetime—just as you care for your possessions in childhood, so will you care for them always. And so the wardrobes for Terri Lee have been chosen and designed to extend to all Little Mothers the love, the warmth, the happiness that the people at the Terri Lee Doll House themselves feel for children the world over.

Good luck, and have fun!
